Program

The individual competition will follow an All Final Qualifying System. Seeding in the first round is done by the best time for that distance in the past and current seasons. The starting positions in the first round of a distance (with multiple rounds) is based on the same list where the fastest skater will be in position 1, the second fastest in position 2 etc. In the Super Final distance, the starting position will be based on the overall classification.

According to the number of entries, there will be a competition over a minimum of two distances and a Super Final A+B. The total number of points from all distance finals + Super Finals will determine the competition's overall winner in each category.

Relay races will be held with club mixed gender teams in 3 categories A/B/S/M (3000m), C/D (3000m) and E/F (2000m). Depending on the number of club teams, extra mixed club teams may be allowed as well, if time permits it. The races of the Relay teams shall happen as if they were finals by assigning a virtual rank based on the sum of the best 500m times for Junior C upwards and 333m for the Junior E/F of the skaters of each team. Hence the last Relay race of each category shall consist of the (virtually) fastest teams. However, the distance classification of the Relay shall follow the finish times of each team. In such a way, we can provide challenging and safe Relays.

	1st distance	2nd distance	Super Final A + B
Junior E & F	333 m	222 m	500 m (2 x 6)
Junior D	777 m	500 m	A: 1000m (6) - B: 777 m (6)
Junior C	777 m	500 m	1000 m (2 x 6)
Junior B	1000 m	500 m	1500 m (2 x 7)
Junior A & Senior	1000 m	500 m	1500 m (2 x 7)
Masters	1000 m	500 m	A:1500 m (7) - B: 1000m (6)

The organizing committee may alter the program should it be deemed necessary.

Track and padding

The track is an artificial indoor ice surface of 30 m x 60 m. The competition will be held on a 111,12 m oval track with a measuring curve of 8,50 m. Six (6) other tracks will be laid out according to ISU rules. The starting line will be moved accordingly. For all tracks, one finishing line with a photo finish will be used.

STKG finds safety very important, so we provide protective padding of 60 cm in the primary and secondary crash zone and 40 cm of padding in the safe zone per ISU communication number 2365 for International Competitions (Seniors and Junior A+B).

Condition of contest

Points for each Distance Classification will be awarded in accordance with Rule 295, paragraph 6. The Overall Classification will be calculated in accordance with Rule 295, paragraph 8. Skaters who did not start in the first round of any of the distances with a valid reason, e.g. a medical reason, will get a ranking on that distance equal to the number of participants plus 1.

Awards

Individual classification: Awards will be given to the first, second and third in the final classification of each category.

Club classification: Awards will be given to the first, second and third in the final club classification (best 5 skaters per club + best Relay result). Individual skaters may gain the following points 25, 23, 22, 21 ... for a 1st, 2nd, 3rd, 4th ... place according to the categories defined in the announcement (section Age Groups). For the Relay, 50, 40, 30, 20 and 10 points are granted for 1st, 2nd, 3rd, 4th and 5th place respectively in one of the categories in which the Relay was skated. Only the points of teams of which all members belong to the same club, count towards the club classification. In case of a tie, the clubs will be ranked equally. In the case that Relays are not held for all categories, no Relay results will count towards the club classification.

Competition Series: Golden Sun Awards

The Easter Cup is part of a series of 3 competitions, including the Hanse Cup 29th in Rostock, GER (11-13 October 2024), the Speculaas Cup in Hasselt, BEL (15-16 February 2025) for Juniors and Seniors. A combined ranking will be created over all competitions. The awards will be handed out after the award ceremony of the Easter Cup.
